

KIS Newsletter-MARCH 2009

Parking!

We are very soon going to have a serious accident at pick up time after school, especially in these wet conditions. People are still stopping on the road and zebra crossing to pick up students. Please use only the small car park, the area outside the playground and the large car park on the main road (Drymyrgt.)

Space is limited so please park carefully. The business park is going to implement new measures to support us with this problem as soon as possible.

Parent playground working group

This group is being led by Hege Sagstad, grade 5 parent. Angela and Hege will be meeting with me on Thurs next week to discuss the plans for when the snow has melted! If you would like to be part of this group or are willing to offer your skills in gardening or building, please contact Angela or Hege to let them know. The student council is also involved in the planning of these improvements.

Playground and lunch routines

We have had some queries regarding this recently, so I thought I would send home our routines for everyone. There are always 2 members of staff on duty at outside break times; one monitors the road and the other is in the playground. We also have Grade 6 playground buddies who are there to help out too. The staff on duty carries an incident book to record anything that has happened that class teachers need to be informed of. During inside eating time, we have one member of staff with grade 1, another member of staff monitoring the ground floor (grades 2 & 3), one on the middle floor and one in the red building.

Update on Kongsberg International Preschool

We now have an organisation number and so the Preschool is now its own company. More information will come from the Board regarding this shortly. We are now able to issue invoices for the Preschool, so these will come out to you as soon as possible along with new contracts.
